EDUCATIONS

VIT Vellore | Vellore, India

2021 - 2025

B.Tech in Computer Science Engineering

CGPA : 8.35

- **B.Tech in Computer Science Engineering** with Specialization in Information Security

WORK EXPERIENCES

Associate Software Engineer | Full-time

Apr 2026 - Present

PricewaterhouseCoopers (PwC)

On-site • Gurugram, India

- **Developing AI-powered agents** for financial services to **automate workflows** and **enhance decision-making** within enterprise CFO-focused solutions.
- **Building and deploying backend services** using **Python** and **FastAPI**, enabling scalable and high-performance APIs for AI-driven applications.
- **Designing and integrating RESTful APIs** with frontend systems built in **React.js** and **TypeScript**, ensuring seamless end-to-end functionality.

Technologies / Skills Used : Python, FastAPI, React.js, TypeScript

Full-Stack Developer | Full-time

Aug 2025 - Mar 2026

Markopolo AI Inc.

Remote • San Francisco, CA

- **Architected 15+ full-stack features** using **React.js**, **Node.js**, **NestJS**, **Express.js**, **MongoDB**, **PostgreSQL**, and **TypeScript**, serving **1000+** platform users daily.
- **Developed custom Shopify app** using **Shopify Web Pixel API** to track e-commerce events, capturing analytics data for **500+** merchant stores with real-time event monitoring.
- **Integrated HubSpot Marketing and CRM REST APIs**, enabling seamless data synchronization for **50+** enterprise clients.
- **Implemented automated email marketing workflows** through HubSpot API integration, reducing manual campaign setup time by **60%**.

Technologies / Skills Used : React.js, Node.js, NestJS, Express.js, MongoDB, PostgreSQL, TypeScript

Software Engineering Intern | Internship

Feb 2025 - Aug 2025

Markopolo AI Inc.

Remote • San Francisco, CA

- **Built responsive dashboards** using **React Hooks** and **Context API**, improving user engagement metrics by **25%**.
- **Developed RESTful APIs** using **Node.js** and **Express.js** to handle **500+** daily API requests with **99%** uptime.

Technologies / Skills Used : React Hooks, Context API, Node.js, Express.js

PROJECTS

Serenity-AI |  Vercel  Github

Developer

- **Mental wellness companion** developed using **Next.js**, **FastAPI**, **Supabase**, and **Google Gemini AI**. Executed **JWT authentication**, designed **RESTful APIs**, and implemented responsive design to deliver personalized AI recommendations.

Technologies / Tools Used : Next.js, FastAPI, Supabase, Google Gemini AI

Pi-Home-Lab |  

Developer

- **AI-powered self-hosted Raspberry Pi 5 homelab** running 7+ Dockerized services including Jellyfin, Immich, qBittorrent, Pi-hole, Samba, and OpenClaw AI agents.
- Built using Docker Compose with Tailscale VPN for secure remote access, network-wide ad-blocking via Pi-hole, NAS functionality, and **24/7 self-hosted AI agent orchestration** on personal hardware.

Technologies / Tools Used : Docker, Tailscale

NextTube |  

Developer

- Full-stack video streaming platform using T3 Stack (**Next.js**, **TypeScript**, **tRPC**). Features Next Auth authentication, Prisma ORM, and **Tailwind CSS** with real-time video streaming capabilities for **200+** concurrent users.

Technologies / Tools Used : Next.js, TypeScript, tRPC, Prisma, Tailwind CSS

FormWave |  

Developer

- **Advanced form builder** using **Next.js 13** and **Dnd-kit**. Built with **TypeScript**, **Tailwind CSS**, and **React Hooks** featuring drag-and-drop interface and database integration for form submissions.

Technologies / Tools Used : Next.js, Dnd-kit, TypeScript, Tailwind CSS, React Hooks

SKILLS

Databases :

MongoDB, PostgreSQL, MySQL

Frameworks Libraries :

React.js, Next.js, React Hooks, Redux, Tailwind CSS

Programming Languages :

JavaScript (ES6+), TypeScript, Python, Java, C++

Tools Platforms :

Node.js, Express.js, NestJS, Docker, GitHub Actions

AWARDS & ACHIEVEMENTS

- Built **Serenity-AI**, a personalized mental wellness companion powered by **Gemini AI**

CERTIFICATIONS
